Weekly transports with daily departures.

We adapt our services to our customers needs.

Dias & Filhos

Transportes Internacionais, Lda

Our vehicles are equipped with a GPS localization systems which allows real time monitoring of your products.

All our transports are compliant with the CMR convention.

TRANSPORT OF DANGEROUS GOODS

We transport packaged dangerous goods, known as ADR, and fully comply with the legal directives of all European countries.

Our vehicles are equipped and signaled in agreement with the ADR regulations and our drivers are certified for dangerous goods transportation.

Security is one of our main concerns as a company. We enforce the driving and rest times regulation compliance to ensure road safety.

EXPRESS SERVICE

We propose to our customers express services to all European countries. We are able to respond to urgent requests with a fast and secure delivery.

Our express services are carried out by two drivers in order to maximize the driving time while complying with the legislation about driving and rest periods. This allows us to minimize the delivery time while ensuring drivers security and road safety.

**We are concerned with both your and our security...
Because we care!**
